

E4.1L

The best combination of strength and low weight

Moving energy made even easier - fast harnessing and time-less design

Advantages of the E4.1L system:

- 30% lighter and more cost-effective than the comparable E4.1
- Very cost-efficient: strong and light due to optimised e-chain® link design
- Ideal ratio of internal and external dimensions with thinner outer links and optimised crossbar geometry
- e-chains® and e-tubes openable along the inner and outer radius, from both sides
- Inside completely accessible for easy filling
- Very tightly fitting lids on the e-tubes, virtually no gaps or openings
- Also suitable for side-mounted, standing and hanging applications
- Lower weight, high strength and good dynamics

When to use another e-chain® series:

- For easy, tool-free opening and closing - the next generation of easy-to-assemble e-chains®
► **E4Q, page 580**
- When the e-chain® needs to be extremely quiet (32dB(A)) with very low vibration
► **E6.1, page 832**
- When the e-chain® should have a cleanroom ISO Class 1 classification
► **E6.1, page 832**
- If even higher strength is required
► **E4.1, page 616**

The best combination of strength and low weight - E4.1L

Significantly reduce assembly and harnessing time with the E4.1L(ean). Whether as an e-chain® or a chip-proof energy tube, with its sleek design and matching accessories the E4.1L brings maximum efficiency at a cost-effective price. An easily accessible interior, improved crossbars and separators and the new honeycomb strain relief system result in an 80% faster installation. Easily adaptable to any application due to the modular design, this universal solution makes optimal use of the space, is lighter than the alternatives and yet extremely strong. A cable-friendly interior ensures a long service life for the cables. The E4.1L reduces downtime and the assembly and maintenance time whilst saving time and money in operation and acquisition.

Typical industries and applications

- Machine tools
- General mechanical engineering
- If the strength of the E2/000 is insufficient, but an E4.1 is oversized

Electrically conductive ESD e-chains® upon request

High torsional rigidity

iF product design award
2014 for series R4.1L

What does "Lean" mean in the E4.1L system?

Making a system "lean" means that its individual components are ideally matched to each other, making it more optimised. The aim is to avoid waste and increase efficiency. This is achieved in two ways: from the customer's point of view in order to fulfil their requirements, and from the producer's point of view in order to improve productivity and efficiency. igus® implements these lean properties in its energy supply systems in order to make time-saving e-chain® assembly possible, while also enabling quick and easy harnessing with cables.

E4.1L e-chains® and R4.1L e-tube crossbars, lids and shelves are openable along the inner and outer radius, from both sides

Lean separators enable extremely fast cable filling in several layers

Assembled in seconds - CFU honeycomb strain relief. Simply insert cables and hoses into the honeycomb and close

KMA mounting brackets with attachment options from any side

Safe parallel guiding of corrugated tubes with the optional, external TUB guidance

Extension links - for extremely wide e-chains® up to 2.0m with 50% more fill weight

Flexible extender crossbar range - e-chain® extender with crossbars for enlarging the interior

Aluminium "SuperTrough" - the standard igus® guide trough ► [From page 1298](#)

Aluminium and steel support tray for support of the lower run ► [From page 1362](#)

Lean interior separation vs.
standard interior separation - time
saving due to easy shelf fitting

Time-saving lean separators

- The design of the igus® lean separators allows extremely fast fitting of shelves in several layers
- Enable extremely fast replacement of individual cables in a very full e-chain®
- Several layers of cables fitted quickly
- Save up to 50%* assembly time

*Lean interior separation vs. standard interior separation. Measured on a 4m long e-chain® fitted with 12 cables in the igus® lab

► approx. 50% time saving

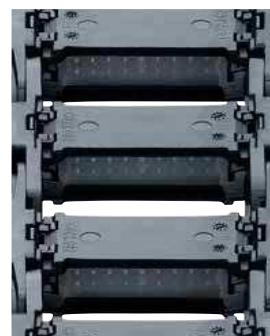

Lean strain relief CFU vs. chainfix
CFX - time-saving due to the
innovative honeycomb structure

CFU.V strain relief with innovative honeycomb design for fast assembly and high holding force

- 80%* faster fitting, openable from both sides for assembly in seconds
- Flexible honeycomb design for increased holding force
- Tribologically optimised honeycomb design for the best hold
- Different cables with diameters from 2mm to 17mm can be strain-relieved without problems
- Cables can be replaced easily
- Easy positioning of cables

*Lean strain relief CFU vs. chainfix CFX. Measured on a 4m long e-chain® fitted with 12 cables in the igus® lab

► approx. 80% time saving

Serie E4.48L vs. E4.42 - time-saving
due to easy opening mechanism

E4.1L - fast to harness

- With one of igus® fastest opening systems for simple e-chains® harnessing
- Save up to 67%* assembly time
- Lower weight, cable-friendly interior and improved ratio of inner to outer size
- Easy accessibility of the complete inner space, openable from both sides

*Series E4.48L vs. E4.42. Assembly time tested at the igus® lab

► approx. 67% time saving

Interior separation | To allow faster filling

With the lean separator you can quickly insert several layers of cables into the e-chain® and reduce the installation time by up to 50%²⁾.

2) Lean interior separation vs. Standard separator - measured on a 4m long e-chain® fitted with 12 cables in the igus® readychain® factory

Lean separators¹⁾

For quick fitting of shelves in several layers.

1) Note: Please combine maximum 4 lean separators with one shelf. Not suitable for side-mounted e-chains!

Separator with integrated strain relief teeth

- Can be integrated into the mounting bracket or placed at any point
 - Combines strain relief and interior separation, for restricted space conditions
 - Strain relief separator is easy to assemble without any screws
- Part No. 31.Z - more information ► From page 1424

Aluminium support tray

- Corrosion-resistant and seawater-resistant aluminium rails with adjustable width
 - Noise-reducing glide strip integrated as standard
 - Easy installation and connection of the e-tube
 - Open design - dirt and debris fall through
- More information ► From page 1362

E4.1L | Series E4.38L·R4.38L | Accessories

Interior separation | To allow faster filling

With the lean separator you can quickly insert several layers of cables into the e-chain® and reduce the installation time by up to 50%²⁾.

2) Lean interior separation vs. Standard separator - measured on a 4m long e-chain® fitted with 12 cables in the igus® readychain® factory

Split separators

In order to fill e-chains® more easily and effectively, these separators can be split in the middle. This allows easier access to middle shelf partitions. Fast assembly and easy retrofit. 2 types available: with wide or narrow top.

Lean separators¹⁾

For quick fitting of shelves in several layers.

1) Note: Please combine maximum 4 lean separators with one shelf. Not suitable for side-mounted e-chains²⁾.

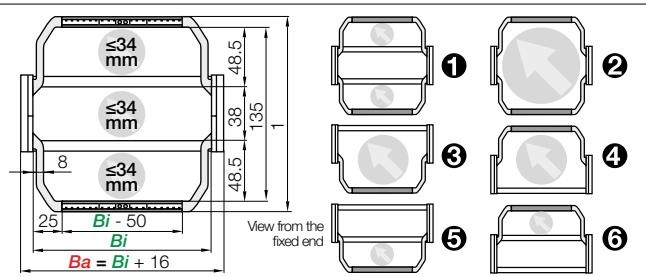

Separator with integrated strain relief teeth

- Can be integrated into the mounting bracket or placed at any point
 - Combines strain relief and interior separation, for restricted space conditions
 - Strain relief separator is easy to assemble without any screws
- Part No. 38.Z - more information ► From page 1424

E4.1L | Series E4.38L·R4.38L | Further accessories

e-chain® with openable extender crossbars

**Extender crossbars with flexible width | Safe guiding for large hoses**

- For guiding and protecting large hoses
- With mounting for noise dampers
- Cable-friendly design, high crossbar holding force
- The openable extender crossbars can be fitted in different ways and combinations
- Optionally openable along the inner or outer radius

Versions**e-chain® with extender crossbar**

	Hose Ø ≤ [mm]	Part No.
1 Extender crossbar and standard crossbar alternating along the inner and outer radius ¹⁾	34	E4.38L.XXXHB48.R.0
2 Extender crossbar on both sides along the inner and outer radius ²⁾	122	E4.38L.XXXB48.R.0
3 Extender crossbar along the outer radius ³⁾	78	E4.38L.XXXBE48.R.0
4 Extender crossbar along the inner radius ²⁾	78	E4.38L.XXXBZ48.R.0
5 Extender crossbar and standard crossbar alternating along the outer radius ³⁾	34	E4.38L.XXXHBE48.R.0
6 Extender crossbar and standard crossbar alternating along inner radius ¹⁾	34	E4.38L.XXXHBZ48.R.0

1) Minimum bend radius: R 125 2) Minimum bend radius: R 150 3) Minimum bend radius: R 063 *Width available upon request. Delivery time upon request

Bi [mm] Available inner widths

| 100 | 105 | 112 | 125 | 137 | 150 | 162 | 175 | 187 | 200 | 212 | 225 | 237 | 250 | 262 | 275 | 287 | 300 | 312 | 325 | 337 | 350 | 362 | 375 | 387 | 400 |

Complete Part No. with the width index XXX of Bi and the minimum bend radius (R). Example:

E4.38L.100B48.150.0 = Bi 100 / extender crossbar on both sides along inner and outer radius / bend radius (R) 150

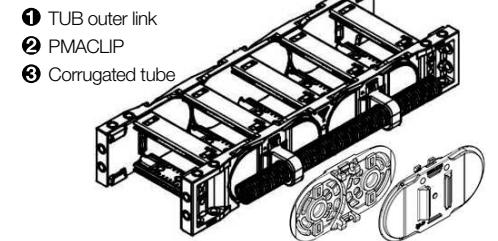

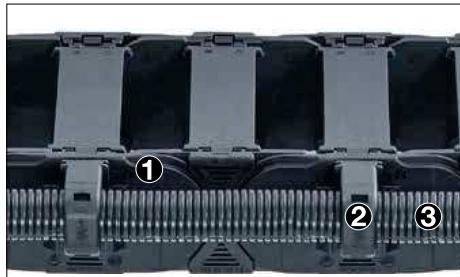

The E4.1L can be fitted with openable extender crossbars, which increase the size of the interior of the e-chain®. Crossbars can be fitted in various ways: from one or both sides, alternating with standard crossbars and or any combination

Aluminium support tray

- Corrosion-resistant and seawater-resistant aluminium rails with adjustable width
- Noise-reducing glide strip integrated as standard
- Easy installation and connection of the e-tube
- Open design - dirt and debris fall through

More information ► From page 1362

**E4.1L | Series E4.38L·R4.38L | Further accessories****TUB****TUB | Safe guidance for corrugated tubes parallel to the e-chain®**

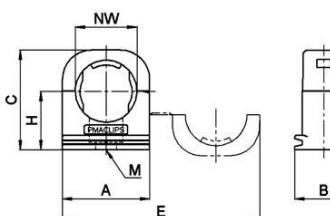

- Additional, simple guidance for corrugated tubes on the outside of the e-chain®
- PMACLIP support to be easily clipped on corrugated tubes with nominal widths 07, 10, 12, 17 mm
- Easy access to the corrugated tubes, fast replacement of the hoses
- Reduce assembly time and cost - easy to assemble, without any additional screws or tools
- The part number includes the e-chain® with TUB side sections; the PMACLIP support and the hose are ordered separately

Part No. TUB	Part No. TUB	Part No. TUB	For corrugated tube nominal diameter
Outer link right*	Outer link left*	Outer link at both ends*	Ø [mm]

Strain relief e.g. clamps, tiewrap plates, nuggets and clips are available from stock. The complete chainfix range with ordering options ► From page 1392

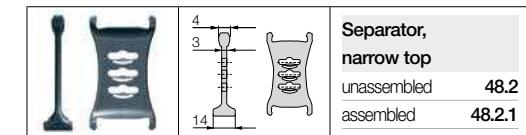

E4.1L | Series E4.48L·R4.48L | Accessories

Interior separation | Increase cable service life

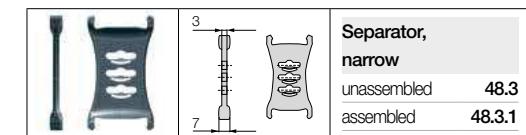

Standard - for any application

Separator with a wide base for maximum holding force.

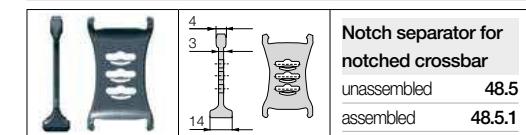

For even faster installation

Wide on one side for high holding force, narrow on opposite side for easy cable fitting.

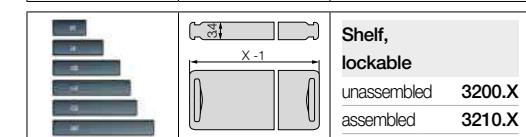

For small cables

Separator with a narrow base for a large number of small cables side by side. Saves space.

Locks securely in preset increments

Notch separator for exact positioning.
Recommended for side-mounted applications.

Horizontal separation

Full-width shelf locks securely into separators at both ends, giving a fixed width. Can be used as full-width or partial shelf.

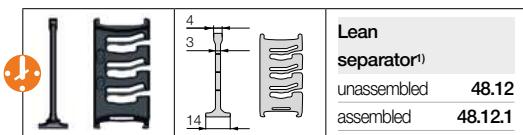

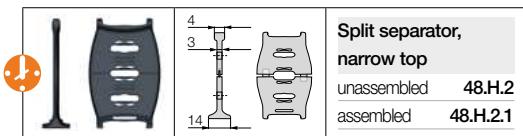

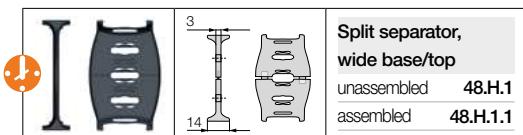

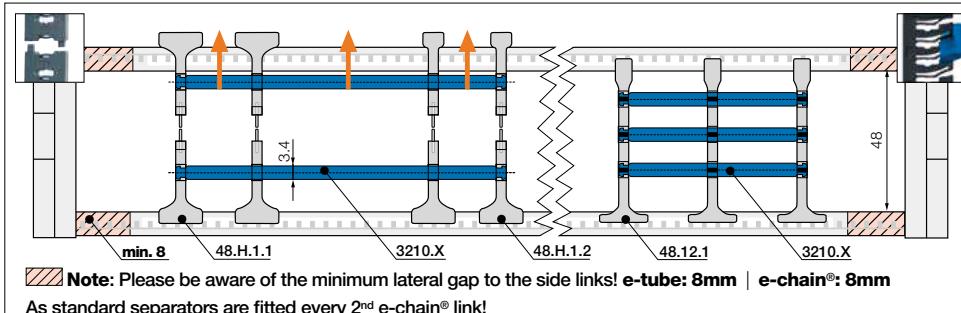

Shelves

E4.1L | Series E4.48L·R4.48L | Accessories

Interior separation | To allow faster filling

Split separators

In order to fill e-chains® more easily and effectively, these separators can be split in the middle. This allows easier access to middle shelf partitions. Fast assembly and easy retrofit. 2 types available: with wide or narrow top.

Lean separators¹⁾

For quick fitting of shelves in several layers.

1) Note: Please combine maximum 4 lean separators with one shelf. Not suitable for side-mounted e-chains²⁾.

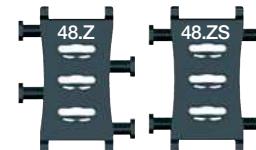

With the lean separator you can quickly insert several layers of cables into the e-chain® and reduce the installation time by up to 50%²⁾.

2) Lean interior separation vs. Standard separator - measured on a 4m long e-chain® fitted with 12 cables in the igus® readychain® factory

Separator with integrated strain relief teeth

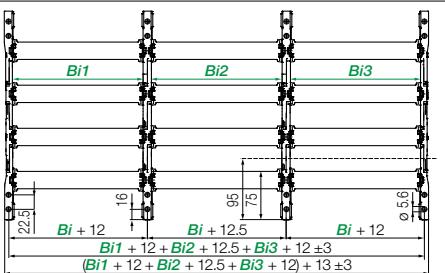

- Can be integrated into the mounting bracket or placed at any point
- Combines strain relief and interior separation, for restricted space conditions
- Strain relief separator is easy to assemble without any screws

2 versions: Part No. 48.Z / Part No. 48.ZS - more information ► Form page 1424

E4.1L | Series E4.48L·R4.48L | Further accessories

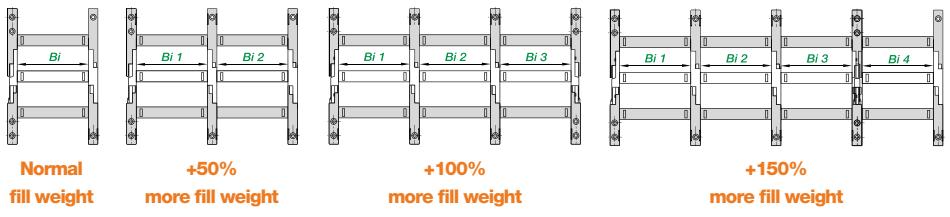

Extension links

**Extension links | For extremely wide e-chains® up to 2.0m with 50% more fill weight**

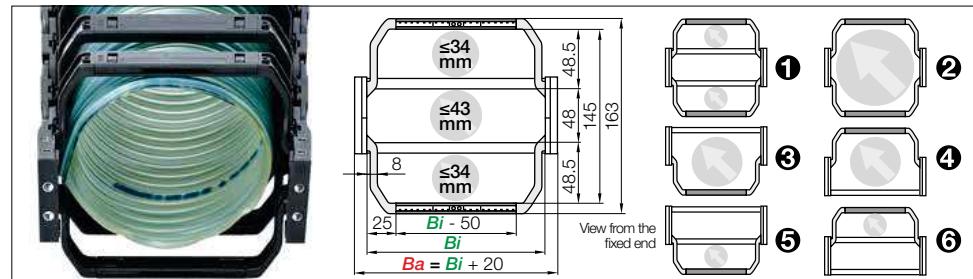

- Extension link e-chains® for 50% higher fill weight extension link up to widths of 2.0m and more
- For heavy fill weights or e-chains® with many heavy cables next to each other
- e-chains® and e-tubes can be combined

Part No.	Part No.	Part No.
Extension link e-chain® E4.48L.Bi1/Bi2/Bi3.R.0	Extension link e-tube R4.48L.Bi1/Bi2/Bi3.R.0	Extension link as an individual part E4.48ML.R.

Complete Part No. with the width index **Bi1/Bi2/Bi3/etc.** and the radius (**R**). Example: **E4.48L.175/175/175.150.0**

Increase of the fill weight per extension link**E4.1L | Series E4.48L·R4.48L | Further accessories**

e-chain® with openable extender crossbars

**Extender crossbars with flexible width | Safe guiding for large hoses**

- For guiding and protecting large hoses
- With mounting for noise dampers
- Cable-friendly design, high crossbar holding force
- The openable extender crossbars can be fitted in different ways and combinations
- Optionally openable along the inner or outer radius

Versions	Hose Ø ≤ [mm]	Part No.

1) Minimum bend radius: **R 125** 2) Minimum bend radius: **R 150** 3) Minimum bend radius: **R 075** *Width available upon request. Delivery time upon request

Bi [mm] Available inner widths

| 100 | 105 | 112 | 125 | 137 | 150 | 162 | 175 | 187 | 200 | 212 | 225 | 237 | 250 | 262 | 275* | 287* | 300 | 312* | 325* | 337* | 350* | 362* | 375* | 387* | 400*

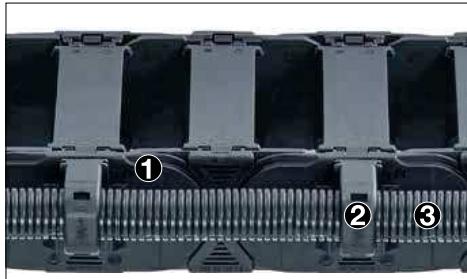

Complete Part No. with the width index **XXX of Bi** and the minimum bend radius (**R**). Example:

E4.48L.100B48.150.0 = Bi 100 / extender crossbar on both sides along inner and outer radius / bend radius (R) 150

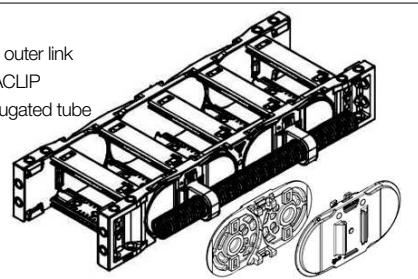

The E4.1L can be fitted with openable extender crossbars, which increase the size of the interior of the e-chain®. Crossbars can be fitted in various ways: from one or both sides, alternating with standard crossbars and/or any combination

TUB

- ① TUB outer link
- ② PMACLIP
- ③ Corrugated tube

TUB | Safe guidance for corrugated tubes parallel to the e-chain®

- Additional, simple guidance for corrugated tubes on the outside of the e-chain®
- PMACLIP support to be easily clipped on corrugated tubes with nominal widths 7, 10, 12, 17, 23, 29, 36mm
- Easy access to the corrugated tubes, fast replacement of the hoses
- Reduce assembly time and cost - easy to assemble, without any additional screws or tools
- The part number includes the e-chain® with TUB side sections; the PMACLIP support and the hose are ordered separately

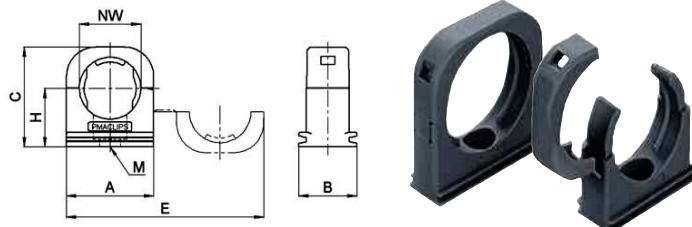

Part No. TUB	Part No. TUB	Part No. TUB	For corrugated tube nominal diameter

Steel support tray for support of the lower run

- Simple one-piece support trays for the lower run
 - To your requirements and specification
 - 4 options available
- More information ► From page 1356

CFU strain relief with innovative honeycomb design

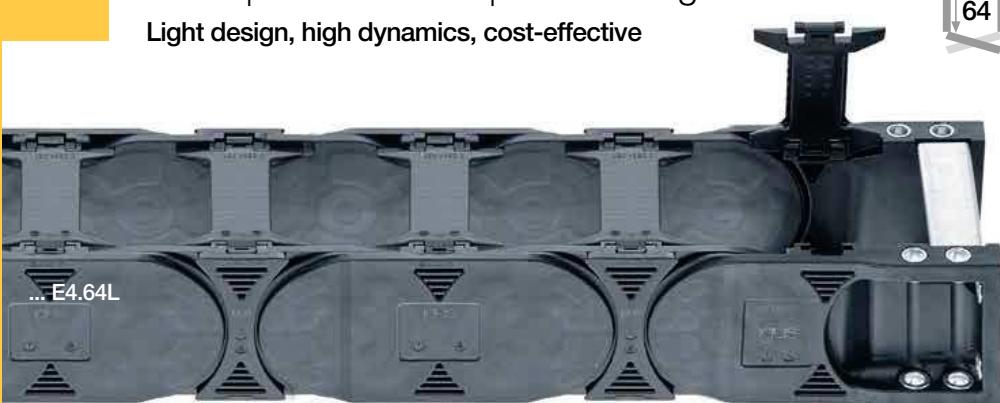

- Fast filling, openable from both sides for assembly in seconds
 - Flexible honeycomb design for increased holding force
 - Tribologically optimised honeycomb design for the best hold
 - Universal use, compact, space-saving design
- More information ► Page 1424

Due to the modular design, the E4.1L system can be adapted to almost any application. As an open version for cable guidance, with extender crossbars for large hoses, or enclosed chip-resistant tube complete with guide trough - just three of many options

E4.1L | Series E4.64L | Product range
